Request to be heard?: No

**Full Name:** Susan Graham

**Organisation:**

**Affected property:**

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** this area of Gippsland being the 'Food bowl' of Victoria should not be at risk of being contaminated. Apart from the health of the actual farmers through toxic dust it appals me that the land could be compromised beyond repair. The fact that not only the surrounding land could be endangered but the health of the pristine Gippsland Lakes could also be in the line of fire is unbelievable. This mine must be stopped I it's tracks!
