Comments: Dear Inquiry and Advisory Committee members, I am writing in response to the EES conducted by Kalbar for the Fingerboards Mineral Sands Mine Project. I grew up in East Gippsland have have a close connection to the area. My home is located ten kilometres from the Fingerboards. After living in Melbourne for over twenty years I returned to live a quieter country life, and started building my home in Lindenow South in 2015. But I would not have chosen to build my home where I did had I known there would be a mine nearby. As I live so close, and downwind, of the mine site, I am very concerned about what we will be exposed to, due to the amount of toxic dust that will be produced, and diesel pollution from machines running 24 hours a day for the next 20 years. As well as all the potential risks to the environment and way of life to the local community. I do not believe the Fingerboards Mineral Sands Mine Project should go ahead at Glenaladale, East Gippsland.
