Comments: Dear Inquiry and Advisory Committee members, I am writing in response to the EES conducted by Kalbar for the Fingerboards Mineral Sands Mine Project. We moved to the area 3 years ago , excited to have a "quiet Country life" . We live only 10 mins from the proposed site, and would not have built our house here if we had of known the Mine was a possibility. We chose this area due to the wonderful natural bush land and the peaceful walking tracks. Such a powerful Non-Industrial feeling. I was devastated when hearing of the proposal, and instantly started thinking of ways to speak my opposition or worst case scenario, moving our family away from such a terrible decision from the Local Council . Thank you for the opportunity to speak our concerns ,
Skie Driffill
