Comments: I moved to East Gippsland 5 years ago with my husband to embark on a new life in a beautiful region that has so much to offer. We enjoy an array of activities with our 2 year old daughter that revolve around our rivers and nature reserves within a short drive from our home including fishing, kayaking and hiking in and around the Mitchell River. Knowing how the proposed mine will affect all of these things as well as our family and friends who live in very close proximity to the mine site is utterly heartbreaking. This project will not bring local jobs as it claims, will destroy an abundance of wildlife and have flow on affects for many years that will in turn affect my children in the future. Let's put a stop to this and not ruin an entire community and the land we love so much.
