Comments: This mining must not go ahead as it will destroy the Mitchell River silt jetties at Eagle Point, Victoria which have been created over thousands of years. The mine will only be 500 metres from the Mitchell River which feeds the jetties. The mine will kill wildlife & flora & poison the waterways. This whole area must be preserved for our children, grandchildren to be able to visit . Please do not let the mining go ahead. This whole area is a National Park .
