Comments: Dear Inquiry and Advisory Committee members,
I am writing this submission about the EES for the Fingerboards mineral sands mine project. I strongly oppose this mine due to the health risks that it poses to our community. As acknowledged by Kalbar Operations Pty Ltd there are radioactive substances being mined including rare earths. The dust generated from the mine will disperse which is very concerning from a health point of view. I ask that the panel carry out their duty of care for our community and ensure that our community is not exposed to this unacceptable risk. As a resident of this area for the past 30 years I am deeply concerned about the long term health risk that this mine poses to our community. I thank the Panel members for the opportunity to make a submission.
Yours sincerely Duncan Grant
