

# Submission Cover Sheet

Fingerboards Mineral Sands Project Inquiry and Advisory  
Committee - EES

# 651

---

**Request to be heard?:** No - but please email me a copy of the  
Timetable and any Directions

**Full Name:** Amelia Chappelow

**Organisation:**

**Affected property:** [REDACTED] Walpa

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** Australia's natural resources shouldn't be given away or sold, they're priceless. The local vegetable industry employs up to 2,000 people and no farmers be able to sell their crops, meat or live stock if their produce is contaminated. The Mitchell River will need over 3 billion litres of water annually for processing and dust suppression for 15 years and no doubt we'll need tighter water restrictions while sacrificing the health of the Gippsland Lakes. STOP KALBAR! Please!
