Comments: Hi, Please do not mine here. We have years of drought and water is precious to us. We need resources to grow food, to drink water, to let our children enjoy a swim in the hot days. East Gippsland is a place of beauty and a natural playground for children to discover. The wildlife and landscape are our home. Please don't take this away from our children and animals that call this home. I pray you will see the damage it will cause and will not mine here! Yours sincerely J. Jenes
