Fingerboards Mineral Sands Project Inquiry and Advisory  
Committee - EES

# 793

---

Request to be heard?: No

**Full Name:** Brianna Scott

**Organisation:**

**Affected property:**

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** i would hate for this mine to go ahead as it will have a significant affect on me and my peers. The Kalbar mine is going to destroy aboriginal heritage land that can not be replaced. The dusts and minerals that are going to be set into the air and into the rivers is going to pollute what we breathe and drink, possibly causing cancer. I have not met one person who supports this action and i will be incredibly affected and heart broken if it goes ahead.
