Thanks Tim for the update.

I have informed the IAC of your intention to provide additional expert witness statements. The IAC has asked that I inform the others calling evidence that you intend to provide witness statements for four extra witnesses.

Cheers

Amy

EXTERNAL SENDER: Links and attachments may be unsafe.

Hi Amy,

Apologies for not responding before now, things got a little hectic last week.

We don't yet have a batting order for our witnesses, but I will press Counsel on this after the site inspection and the evidence has been filed. I should however advise that we intend to provide witness statements for four extra witnesses:

- Jarrah Muller from EMM on water balance issues. Since the error was discovered in the balance presented in the EES, we thought his evidence would be particularly relevant.
- John Sweeney from Coffey on water impact assessments. John is the principal author of Appendix 006, and we think he is needed to respond to some EES issues that aren't covered by the other experts.
- Hugh Middlemis, who peer reviewed the groundwater modelling in the EES.

- John Glossop, a planning expert.

Happy to discuss.

Best regards

Morning Tim

Thanks for providing the list of expert witnesses for Kalbar. With Expert Evidence due this Friday, I was wondering if Kalbar had an indication of how you would like to break your experts over your 9 days of the hearing? If you could let me know by next Tuesday that would be appreciated as I hope to issue an update timetable soon.

If you are still not sure of the break down that is not an issue.

Cheers

Amy
