Dear Mr Power

## **Fingerboards Mineral Sands Mine EES Inquiry: Emails from Submitter 639 - Mr Andrew Helps**

---

The Inquiry and Advisory Committee (IAC) has been receiving email correspondence from submitter 639 (Andrew Helps). The correspondence is in relation to a number of technical aspects in respect of the Project and EES.

The IAC has been encouraging Mr Helps to provide this information during his time before the IAC during the Hearing. However, due to the technical nature of the issues he is raising the IAC is providing these now for Kalbar to consider and provide a response to ensure there is adequate time to respond rather than in the Hearing.

Could you please review the information in the e-mails and provide a response by **12 noon on Thursday 1 April 2021**. If the response is reference to existing information this should be clearly identified. The emails in question are attached and include:

- **Email Title** - The use of centrifuges, 30/01/2021
- **Email Title** - KALBAR -Fingerboards Radionuclides Mine, 6/02/2021
- **Email Title** - Significant changes to the KALBAR operational equipment list, 10/02/2021
- **Email Title** - Ongoing submissions of data, 26/02/2021
- **Email Title** - KALBAR Human Health Risk Assessment, 28/02/2021
- **Email Title** - Fingerboards Human Health Risk Assessment Table 9.7 Page 82 - the need for a standardised toxicity standard, 8/03/2021

You should confine your response to the technical, rather than procedural issues. The IAC will then table Mr Helps emails, this correspondence, and your response.

If you have any queries please contact Amy Selvaraj at Planning Panels Victoria on [REDACTED] or [Fingerboards.IAC@delwp.vic.gov.au](mailto:Fingerboards.IAC@delwp.vic.gov.au).

Yours sincerely

**Nick Wimbush**

Chair, Inquiry and Advisory Committee
