Subject: Corrections to Document 25

EXTERNAL SENDER: Links and attachments may be unsafe.

Dear Amy

A) I am writing about Document 25 prepared by Kalbar. I have reviewed that document against my submission (#24) and ask that Kalbar be requested to include submission #24 against the following Issues:

2.5 Water Supply: Issue #1

2.7 Air Quality: Issue #5 and also Issue #7

B) I note that submission #910 is not referenced at all in Document 25 and request that Kalbar be asked to rectify this.

C) On page 15 of Document 25, Issue #3 'Supports the Project' submitter #231 speaks against the mine so his submission number needs to be removed from that list of submission numbers please.

Thank you for your assistance with this.

Regards

Russell Peel
