Fingerboards Mineral Sands Project Inquiry and Advisory
Committee - EES

486

Request to be heard?: No - but please email me a copy of the
Timetable and any Directions

Full Name: Kealey Ratzmann

Organisation:

Affected property:

Attachment 1:

Attachment 2:

Attachment 3:

Comments: I don't want this mine going ahead. Kalbar has no experience in running an open cut mine and will leave ever lasting effects on the environment and will also ruin many unlisted aboriginal heritage sites which will affect the local aboriginal community. Also said finds could lead to archaeological discoveries. was there a chmp done on this site? If so who by and when.
