**Comments:** Date Dear Inquiry and Advisory Committee members, I am writing in response to the EES conducted by Kalbar for the Fingerboards Mineral Sands Mine Project. I have live in the area and have close friends that reside in Lindenow. These are the reasons below I do not believe the Fingerboards Mineral Sands Mine Project should go ahead at Glenaladale, East Gippsland: Potential damage to indigenous cultural sites in the area; the damage it will do to my friends farms, the cattle, and the substances in the water affecting irrigation; dust particles traveling to the communities which will cause respiratory issues. The list goes on and on, the mine will decimate the towns in the area and thousands of people's lives. Thank you for the opportunity to make this submission. Yours sincerely, Alex Kyriazis
