Timetable and any Directions

**Full Name:** Emily Cooper

**Organisation:**

**Affected property:**

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** I am writing to express my opposition to this project going ahead. My reasons are that it will greatly negatively impact the Mitchell River and surrounding land as well as the lives of the animals and the humans that live in the vicinity of the proposed site. Have we learnt nothing of the great importance and irreplaceable nature of our natural world through the recent destruction due to the fires last summer? We can no longer deny that our environment is in need of our protection. Prioritising profit over the environment will never end up working out well in the long term and that is what we should be thinking of. It is my hope that these submissions are listened to and that the greed of a small minority does not win over our precious and irreplaceable natural environment. Please listen. Kind regards, Emily Cooper
