Fingerboards Mineral Sands Project Inquiry and Advisory
Committee - EES

560

Request to be heard?: No

Full Name: Dylan Thomson-Barney

Organisation:

Affected property:

Attachment 1:

Attachment 2:

Attachment 3:

Comments: This mine cannot go ahead. The irreversable environmental damage this will cause to the Mitchell River and Gippsland Lakes is unacceptable and the long term costs will far outweigh the short term financial windfall stood to be made by a few greedy suits. Please, please don't sign off on this mine.
