Fingerboards Mineral Sands Project Inquiry and Advisory
Committee - EES

569

Request to be heard?: No

Full Name: Jessica Weatherall

Organisation:

Affected property:

Attachment 1:

Attachment 2:

Attachment 3:

Comments: I am strongly opposed to the proposed minerals sands mine, due to - The proximity of operations to the Mitchell river and therefore our drinking water - the potential effect on local food growers, water supply and possibly contamination - the potential devastating effects this mine may have on the life within and around the Gippsland Lakes. I do not want to see this project go ahead.
